OpEx Solutions, Inc. Joins the Prestigious Group of Organizations Approved by Project Management Institute to Provide Project Management Training

Austin-Round Rock, Texas, USA – July 29, 2011 – OpEx Solutions, Inc. today announces it is now approved by Project Management Institute to become a PMI Registered Education Provider (R.E.P.) effective August 1, 2011.

PMI R.E.P.s are educational organizations that have demonstrated that they are capable of providing world-class effective project management training. Through PMI's rigorous quality criteria for course content, instructor qualification, and instructional design, R.E.P.s provide the project management training necessary to earn and to maintain Project Management Professional (PMP)[®], Program Management Professional (PgMP)[®] and other PMI professional credentials.

OpEx Solutions helps organizations find and define their own way to operational excellence by instilling commitment and ownership at all levels of the organization through executive coaching, world-class training, benchmarking and project management.

“At OpEx Solutions, we see Project Management and Operational Excellence to be complementary such that you cannot achieve one without the other” said Martin Nazareth, OpEx Solutions' president. “We are confident that this affiliation as a Registered Education Provider will result in significant synergy to support businesses globally with implementation of projects and their operational excellence journey through benchmarking, seminars and training.”

“PMI's recent survey of training providers shows that 80 percent of organizations seeking suppliers of project management training strongly prefer to work with PMI R.E.P.s. They view their affiliation with PMI, as the leading standard-setting professional association for project management, as a stamp of quality on the training services they purchase,” said Edwin Andrews, Ph.D., director of academic and educational programs and services at PMI. “Organizations want to protect their investment in project management training, and they know that a PMI R.E.P. delivers such training in a cost-effective and efficient manner.”

Currently, there are over 1,400 R.E.P.s in more than 70 countries. These organizations include commercial training providers that design complete educational systems, academic institutions, internal training offices at corporations and government agencies.

About OpEx Solutions, Inc.

OpEx Solutions is an operational excellence enabler, offering consulting, training, project management and benchmarking using operational excellence tools and systems. OpEx Solutions helps organizations identify strategic areas for improvement and provide effective high value low cost solutions for People-Equipment-Material-Process systems to drive significant productivity improvement.
